SUMMARY

Profile AI-focused developer and researcher passionate about building tools that make technology more approachable. Blends AI, web development, and community learning to create real-world applications-from Arabic language copilots to education and automation platforms. Active in hackathons, global AI events, and mentorship programs promoting responsible AI adoption.

EXPERIENCE

Independent AI Developer

Jan '24 — Present

- Designed and deployed AI-powered web apps combining chat systems, automation, and data intelligence. . Created AI CV-to-Portfolio Generator and 8n8 Automation Framework to accelerate research workflows. . Built learning materials and guided peers on AI prompt engineering and automation design.

EDUCATION

B.Sc. Computer Science (Data Science) in Data Science, Albukhary International University (AIU),
Malaysia

Jan '25

Malaysia, Malaysia

- Education Compass (Your Guide to Malaysia) Arabic-first AI adviser matching students to Malaysian universities by budget and program.
- Firebase

PROJECTS

Dalili Al-Dawaa (Your Medicine Guide) - Code for Sudan Hackathon

- Dalili Al-Dawaa (Your Medicine Guide) - Code for Sudan Hackathon AI platform connecting patients and pharmacists during crisis situations.

SaySymbol - Google AI Solutions Hackathon 2024 Gemini-powered assistant

- SaySymbol - Google AI Solutions Hackathon 2024 Gemini-powered assistant simplifying language and bridging 22 Arabic accents.

ScholarSeeker - Gemini-based tool for scholarships and timelines

- ScholarSeeker AI Gemini-based tool matching students to global scholarships and application timelines.

SKILLS

AI & ML OpenAI API, Gemini API, LangChain, Scikit-learn, Regression Models, Prompt Design

Web & Apps React, Next.js, Node.js, TailwindCSS, Supabase, Firebase

Cloud & Tools Google Cloud (GCP Certified), Vercel, GitHub Actions, n8n

Interaction & Collaboration Research Design, Workshop Facilitation, Cross-team Collaboration, Cross-cultural Collaboration

Ethics & Education AI Ethics, AI ethics, Automation Design, Community Education

Languages Arabic, English

PUBLICATIONS

Research "Phone Usage, Study Habits, and Academic Performance: Predicting GPA with Machine Learning"

Jan '25

Scopus-Indexed

Applied machine learning models to student behavior data to predict academic performance. Highlighted digital well-being indicators and policy insights for resource-limited universities. Keywords: Python . scikit-learn . Data Analytics . Education Technology

VOLUNTEERING

Head of Academic Affairs, Sudanese Association

Sudan
2024 — Present

Led AI literacy and digital skills initiatives connecting education with innovation. Organized workshops on AI prompting and project-based learning for students and new developers.

CERTIFICATIONS

Google Cloud Associate Cloud Engineer, Google Cloud

Jan '25

GCP Certified, Google Cloud
